## Product Training Announcement

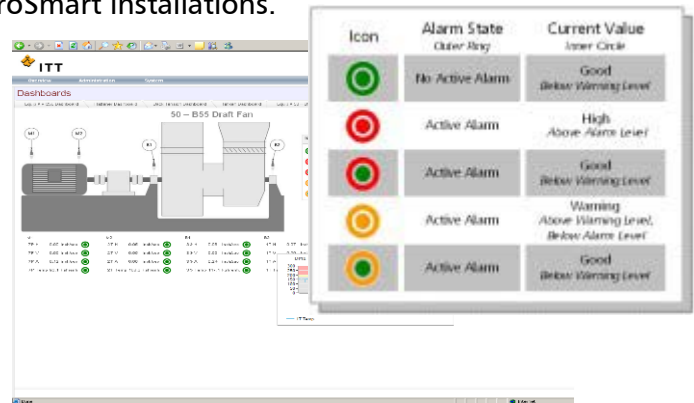

Monitoring and Control

November 23, 2009

# ProSmart® Certification Training

Please join us for the three and a half day hands on ProSmart Certification Training. This course will benefit both Sales Engineers and Field Technicians who will be selling and performing ProSmart installations.

### YOU WILL LEARN

This three and a half day certification course covers the practical aspects of the ProSmart installation, ProNet Navigation and configuration.

#### ProSmart System basics

- features, functions, and benefits of the system components and how they work together
- how the system can save money through reduction in production downtime and failure costs
- effective equipment and process monitoring

#### Other session highlights

- introduction to wireless communication
- pressure, temperature, and flow monitoring
- applications and case studies
- how to generate an ePrism ProSmart quotation

#### You will participate in hands-on sessions

- ProNet navigation
- system installation and configuration
- site-survey demonstration

## RESERVE YOUR SEAT NOW
